Critical Thinking Questions for
PPMI ON-DEMAND WEBINAR RECORDINGS
September 2011, PPMI Webinar #3

American Society of Health-System Pharmacists®
TOGETHER WE MAKE A GREAT TEAM

Needs and Opportunities for Achieving Optimal Outcomes from the Use of Medicines in Hospitals and Health Systems (Application-Based)

To get the most of this CPE activity, participants are encouraged to read and consider the following critical thinking questions. Participants are expected to give these questions thorough considerations as these will be discussed during the recorded presentation.

1. **Which of the following do you consider as barriers to improving medication use in hospitals and health systems?** (check all that apply)

   - ☐ The need for better education and training for physicians, pharmacists, nurses, and patients
   - ☐ Reduced time spent on patient related activities due to increased workload
   - ☐ Lack of access to patient-specific data
   - ☐ Professional practice roles unclear in nontraditional activities
   - ☐ Reliance on error-prone processes
   - ☐ Education, training, and research
   - ☐ All of the above

Please indicate the extent to which you agree or disagree with the following statement. Rate on a scale of 1 to 5 with 5 being the highest	1	2	3	4	5
2. One of the largest barriers to improved patient safety in health systems is organizational culture.	☐	☐	☐	☐	☐
