

The Pediatric Dosage Handbook, 16th Edition

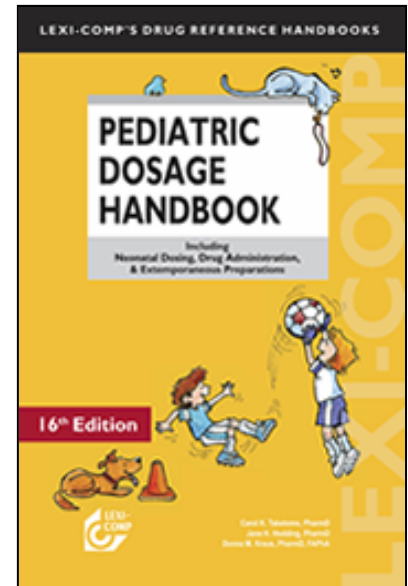

By Carol K. Taketomo, Jane H. Hodding, Donna M. Kraus

2009; Approximately 1,601 pages; softbound

ISBN: 978-1-59195-267-1

List Price: \$73.00 / Member Price: \$58.00

The pediatric population is a dynamic group, with major changes in pharmacokinetics and pharmacodynamics taking place throughout infancy and childhood. Because of these changes, the need for the evaluation and establishment of medication dosing regimens in children of different ages is great. The Pediatric Dosage Handbook, 16th Edition, continues to be the trusted resource for all medical professionals managing pediatric patients.

Updates to this Edition:

- 17 New Drug Monographs
- Updates to Hundreds of Existing Monographs
- Two New Monograph Fields:
 - Breast-Feeding Considerations
