

# Who We Are...

## American Society of Health-System Pharmacists

ASHP is a 35,000-member national professional association that represents pharmacists who practice in hospitals, health maintenance organizations, long-term care facilities, home care, and other components of health care systems.

Our mission is to advance and support the professional practice of pharmacists in hospitals and health systems and serve as their collective voice on issues related to medication use and public health.

### ASHP New Practitioners Forum

ASHP members in their first five years of practice are automatically enrolled in ASHP's New Practitioners Forum...for FREE! The New Practitioners Forum is an exciting and active home for graduates transitioning into the "real world" of pharmacy practice.

*"Involvement in ASHP's New Practitioners Forum has allowed for continued professional development, strengthening of leadership skills, and an opportunity to build a nationwide network of colleagues. Above all, I have established several friendships that I don't believe I would have made had it not been for this experience."*

**Lindsey R. Kelley**, M.S., Pharm.D.  
Pharmacy Manager  
UPMC Presbyterian Shadyside

## Are you ready for the challenges you face?

### You aren't alone

*"The **New Practitioners Forum** has aided in my development as a practitioner and helped introduce me to people experiencing the same things. The New Practitioners Forum has helped in crossing the bridge from student to practitioner."*
