

**Section of
CLINICAL SPECIALISTS
AND SCIENTISTS**

Mission

The ASHP Section of Clinical Specialists and Scientists represents clinical experts and advocates for practice advancement and improvement in patient care by creating and translating scientific advances into practice.

Vision

The ASHP Section of Clinical Specialists and Scientists serves as the primary community for clinical specialists and scientists within ASHP to encourage, develop, and facilitate:

- Involvement and leadership in the Section, ASHP, and the profession,
- The creation, dissemination, and publication of scientific and clinical knowledge, and
- The translation of the results of scientific inquiry and integration of scientific advances into practice.
