

RACHEL KRUER
Chair, Policy & Legislative Affairs Advisory Group

School: University of Cincinnati, James L. Winkle College of Pharmacy

Graduation Year: 2010

How and why I became interested in being appointed to the Pharmacy Student Forum Executive Committee: I became interested in involvement in ASHP through our UC SSHP. Faculty and students from UC who serve or who have served as leaders in ASHP encouraged me to become a more active member. I pursued involvement in the Pharmacy Student Forum Executive Committee to help other colleges and students realize the benefits and resources ASHP has to offer. I also liked the idea of getting to meet and share ideas with students and health-system practitioners from around the country.

Professional interests: Critical care, transplant, infectious disease, and administration

How being a member of ASHP has assisted in my personal and professional development: Becoming a member of ASHP has helped me to become a more knowledgeable and informed pharmacy student. ASHP has also helped me to develop my own professional goals and skill set so that I am prepared to select a residency program where I can continue to develop as a practitioner.

Goals for the year as an Executive Committee member: To encourage and empower students to become agents of change in our profession! I also want to help students become pharmacy advocates by supporting their involvement in the development and evolution of legislation and ASHP policy.

Fun fact: I love to play outside camping, rafting, kayaking, hiking, etc! I take advantage of any opportunity I get to visit friends from around the country and explore what fun things they do outside!
