

ACKNOWLEDGEMENTS

The *Model Curriculum for Pharmacy Technician Training* is a collaborative project undertaken by the American Association of Pharmacy Technicians, the American Pharmaceutical Association, the American Society of Health-System Pharmacists, the National Association of Chain Drug Stores, and the Pharmacy Technician Educators Council. The project was under the leadership of the American Society of Health-System Pharmacists.

The work was conducted by a Curriculum Update Committee composed of a designated individual in each organization. The committee member frequently elicited review from other of their organization's staff or organization members. A list of the committee members and those who assisted their efforts follows.
