Location: Virtual

Description: Participate in this frank discussion with well-renowned pharmacy leadership expert Sara White, MS, FASHP and fellow new practitioners, Michael Decoske, Pharm.D., and Jennifer Tryon, Pharm.D., MS, as they discuss the trials and tribulations faced by new practitioner leaders. Leading without a title, leading your parent's peers, establishing credibility and rapport with colleagues, and handling resistance are just a few of the key issues they will talk about. Learn some tips from someone who has been there and done that, as well as from two of your peers who are currently facing these same obstacles. Leadership is not a trait only held by managers and these pharmacists will discuss ways to overcome obstacles and successfully lead and motivate others regardless of your professional position.
