

# What does the ASHP Research and Education Foundation offer pharmacy students?

The ASHP Foundation, the charitable arm of ASHP, is committed to helping pharmacy students develop into strong, effective leaders in acute and ambulatory settings. We offer a variety of programs and free resources for pharmacy students.

## Introductory Leadership Program

The **Leadership Speakers Bureau** has a roster of pharmacy leaders around the country who will visit your Student Society of Health-System Pharmacists and speak about leadership topics. The visit is funded by the Foundation. Student societies can visit [www.ashp-foundation.org/LSB](http://www.ashp-foundation.org/LSB) for more information about arranging a visit.

## Awards

The **ASHP Student Leadership Awards** recognize students with an interest in health-system pharmacy practice who have demonstrated leadership ability. ASHP offers 12 awards annually, four to student members in each professional year of pharmacy school, beginning with the second professional year. Each award recipient receives a plaque, an ASHP drug information reference library, and a \$2,000 cash award provided by the ASHP Foundation. Visit [www.ashpfoundation.org/student](http://www.ashpfoundation.org/student) for more information.

The **Student Research Literature Award** is given to a pharmacy student for a published paper that describes a completed research project related to medication use completed during the student's first through fourth professional years in a college/school of pharmacy. The recipient

receives a \$1,500 honorarium, a \$1,000 expense allowance to attend the ASHP Midyear Clinical Meeting for the award ceremony, recognition at the annual Literature Awards Breakfast, and a plaque. For more information, visit [www.ashpfoundation.org/litawards](http://www.ashpfoundation.org/litawards).

## Free Online Resources

**Conversations with Health-System Pharmacy's Most Influential Leaders: A Video Series** is a collection produced by Sara J. White featuring oral histories by health-system pharmacy's best-known pioneers, including David Zilz, Joseph Oddis and Henri Manasse, as well as five videos in which several of these icons address a specific topic, such as mentoring. Visit [www.ashpfoundation.org/leadershipvideos](http://www.ashpfoundation.org/leadershipvideos) to watch any of the videos.

The **Pharmacy Forecast** series predicts important developments in eight domains that are likely to challenge pharmacy practice leaders in hospitals and health systems. These reports help students understand and appreciate the issues facing pharmacy leaders and prepares them to face real-world practice challenges. Visit [www.ashpfoundation.org/pharmacyforecast](http://www.ashpfoundation.org/pharmacyforecast) to download a free copy of the 2016 report.

The ASHP Harvey A.K. Whitney Award is the most prestigious award within the profession of health-system pharmacy, and the **Whitney Lectures Online Collection** houses all of the Whitney lectures going back to 1950, as well as information about each awardee, videotaped interviews with some awardees and more. Visit the collection at [www.harveywhitney.org](http://www.harveywhitney.org).
