**Assessment of Impostor Phenomenon in Student Pharmacists and Faculty at Two Doctor of Pharmacy Programs.**

A multi-centered survey that evaluates the prevalence of impostor syndrome for student pharmacists and pharmacy faculty members. By utilizing the 20-item Clance IP Scale and other questions, authors provide real-life insights on the phenomenon of impostor syndrome in the pharmacy school community.

**Clance Impostor Phenomenon Scale.**

The Clance IP Scale (CIPS) is a validated 20-point Likert scale questionnaire used to assess the presence of IP characteristics and the extent to which the individual is suffering. 18 total scores are added and categorized into “few” (< 40), “moderate” (41-60), “frequent” (61-80), or “intense” (>80). The higher the score, the more seriously IP interferes in a person’s life.

**Dealing with doubt: Overcoming impostor syndrome in new practitioners.**

A 3-page commentary that introduces readers to impostor syndrome, describes the prevalence, and provides strategies on how to overcome impostor syndrome. The commentary ends with detailed, 9-step considerations for new practitioners.

**Imposter Syndrome.**
Husaini M. *JAMA Cardiol.* 2021;6(10):1113-1114.

This article describes one physician’s experience with impostor syndrome as a Muslim, Indian American male. The article shines light on the effect of impostor syndrome in an experienced attending physician.

**Imposter syndrome: An opportunity to positively influence mentees.**

This commentary provides guidance for pharmacists, preceptors, and mentors on how to assist younger pharmacists, mentees, and learners who may be struggling with impostor syndrome.

**Imposter Syndrome: Treat the Cause, Not the Symptom.**

A short commentary focusing on the experience of women in medicine, defines impostor syndrome, and highlights the need for a large-scale, systemic culture change to combat impostor syndrome at the root cause.

**Intellectual Self-doubt and How to Get Out of It.**

The author, a pharmacy professor and associate editor of the American Journal of Pharmacy Education, provides a 2-page commentary describing his experience with impostor syndrome. He also provides a 10-step strategy that he utilized to overcome impostor syndrome.
Overcoming the Imposter Syndrome
Sara White. ASHP Connect.
A one-page guide that defines impostor syndrome, assists readers with the identification of the phenomenon, and explains the origin of the symptoms. The post provides guidance on how pharmacists can acknowledge and handle the syndrome to ultimately reach one’s success.

Perfectionism, the impostor phenomenon and psychological adjustment in medical, dental, nursing and pharmacy students.
This study examines the psychological distress, perfectionism, and impostor feelings in medical, dental, nursing, and pharmacy students via anonymous questionnaires with the Clance IP Scale. The article provides a glimpse of how the phenomenon impacts the different disciplines in the medical field.

Prevalence of impostor phenomenon and assessment of well-being in pharmacy residents.
A cross-sectional, survey-based study delivered to PGY1 and PGY2 residents in March 2019. The study indicates that pharmacy residents display more impostor syndrome traits and exhibit greater distress than previously published data about other healthcare providers and students.

Prevalence, Predictors, and Treatment of Impostor Syndrome: a Systematic Review.
Written by authors outside of the field of pharmacy, the paper provides information on impostor syndrome from a psychology perspective. Included is information on the prevalence of impostor syndrome and how social factors, such as race and gender, influence the display of the phenomenon.
