### Patient-Centered Care
- Shift from patient advocacy to patient and family activation
- Integrate pharmacy enterprise for convenient and cost-effective care
- Optimize care via pharmacist-provided comprehensive medication management

### Pharmacist Role, Education, and Training
- Increase in the credentialing and privileging of pharmacists in health systems
- Proliferation of board certification in many practice areas
- Building of workforce skills in population health management and mental/behavioral health

### Technology and Data Science
- Harness data analytics to improve patient health
- Augmented intelligence is an important developing technology that will impact operations and practice
- Assessing patient care technologies to support optimal medication-use outcomes

### Pharmacy Technician Role, Education, and Training
- Foster development of professional career paths for pharmacy technicians
- Achieve a recognized scope of practice
- Advance pharmacy technician roles to improve patient care access

### Leadership in Medication Use and Safety
- Advance use of pharmacogenomics information and lead medication stewardship activities
- Increase public health opportunities to address social determinants, chronic illness, and addiction
- Support the well-being and resiliency of pharmacy workforce

---

**The ASHP Practice Advancement Initiative (PAI) 2030 includes 59 recommendations to promote optimal, safe, and effective medication use; expand pharmacist and technician roles; and implement the latest technologies.**

Pathway to the PAI 2030 Self-Assessment Tool

**PAI Self-Assessment Tools**

**Self-Assessments**

ASHP has developed self-assessment tools to guide and assess progress towards practice advancement. ASHP’s latest offering, the PAI 2030 Self-Assessment Tool, is designed to help you determine how well your practice setting aligns with the PAI 2030 recommendations. The tool identifies areas where the PAI 2030 recommendations could have the most significant impact on your practice setting. ASHP will continue to offer the Legacy Ambulatory Care Self-Assessment Tool for a limited time. This is an older PAI tool based on the 2014 ASHP Ambulatory Care Summit consensus recommendations.

Overview

PAI 2030 Self-Assessment Tool

- Gap analysis with PAI 2030 recommendations
- Two tracks (Practitioner, Organization)
- FAQs
- Create account
- Approximately 45 minutes to complete

User Dashboard

- Self-assessments
- Reports
- Resources

Administrator Dashboard

- Reports
- Manage user accounts
- Edit questions, answers, and resources
- Manage custom groups
