**Sample Health System Specialty Pharmacy Workforce Stay Interview**

Due to the complex nature of health system specialty pharmacy (HSSP) practice, it is crucial to retain top talent. It is too late to intervene if an organization only collects information on an exit interview, and overall institutional employee engagement surveys do not always identify detailed, department-specific, actionable items for specialty leadership to address. In order to maintain the high level of patient care we offer as HSSPs, team morale and job satisfaction are paramount.

Below is a sample “Stay Interview” created to gauge how likely employees are to stay with the specialty department, identify current areas of concern, and intervene before larger issues arise. It is important for leadership to create an action plan after the results of the survey are received to show the team that we truly do care about their satisfaction.

Please answer the following in relation to your employment with HSSP.

1. **What is your role?**
   a. Technician
   b. Pharmacist
   c. Other

2. **How happy are you working for HSSP?**
   a. Very happy
