**Intensive Studies for Recertification: Pediatric Pharmacy (Cert # L219021)**

**Teaser:** The Pediatric Pharmacy Intensive Studies for Recertification Package consists of 3 activities and provides up to 4.0 hours of recertification credit through a high-level, interactive discussion on contemporary and emerging issues in pediatric pharmacy.

**Tag:** Certifications; Pediatric Pharmacy

---

**ACPE Numbers:**

0204-0000-20-249-H05-P

0204-0000-20-250-H06-P

0204-0000-20-294-H04-P

**Pre-Sale Date:** 01/06/2021

**Content Release Date:** 02/03/2021

**Expiration Date:** 02/01/2022

**Activity Type:** Application-based

**CE Credits:** 4.0 hours

**Activity Fee:** \$100 (ASHP member); \$150 (non-member)

**Accreditation for Pharmacists**

The American Society of Health-System Pharmacists is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.

*These activities were presented as part of the 2020 Virtual Midyear Clinical Meeting. Learners who claimed ACPE credit for these activities as part of that meeting, should not claim ACPE credit again.*

**Target Audience**

These recertification activities are intended for board certified pharmacists seeking to update their knowledge and skills in:

- Pediatric Medication Safety
- Childhood Immunizations
- P Values in Statistical Reporting

**Activity Overview**

The Intensive Study Package is intended for board certified pharmacists in need of recertification credit and is designed based on the content outline developed by the Board of Pharmacy Specialties (BPS). Using a case-based approach, the activities provide high-level, interactive discussions on contemporary and emerging issues in pediatric pharmacy.

The Pediatric Pharmacy Intensive Study Recertification Package consists of 3 activities (see table below) and provides up to 4.0 hours of continuing pharmacy education and/or recertification credit.

---

**\*\* Materials for this course will release on 02/03/2021 \*\***

These activities are part of the ASHP professional development program for BCPPS recertification approved by the BPS. For pharmacists who maintain more than one certification, one of the activities is approved for multiple specialties (see table below).

**Recertification Credit\***

Board certified pharmacists are eligible to receive up to 4.0 hours of recertification credit for completing this package. To earn recertification credit, learners must review the activity content and successfully complete the online assessments by the deadline. Only completed assessments will be eligible for credit; no partial or incomplete assessments will be processed. You are allowed only one attempt to successfully complete this assessment.

Learning Module	ACPE Number	Credit Hours	Specialty	*Assessment Pass Point
Building Blocks to Improve Pediatric Medication Safety	0204-0000-20-249-H05-P	1.50	BCPPS	TBD
Childhood Immunizations: When the Immunization Schedule Doesn't Work	0204-0000-20-250-H06-P	1.00	BCPPS	TBD
P VALUEable? Purpose, Use, and the Evolution of P Values in Statistical Reporting	0204-0000-20-294-H04-P	1.5	BCPPS, BCCCP, BCPS	TBD

**Building Blocks to Improve Pediatric Medication Safety**

**0204-0000-20-249-H05-P**

**Learning Objectives**

At the conclusion of this application-based educational activity, participants should be able to do the following:

- Apply human factors engineering principles to improve the pharmacist's approach to medication safety.
- Design a support system for second victims.
- Design medication use processes that optimize safety and minimize risk of error in pediatric patients.
- Recommend approaches for ensuring safety for pediatric patients with the use of smart pump technology.

*This activity is approved for Board Certified Pediatric Pharmacist (BCPPS) recertification credit.*

**Childhood Immunizations: When the Immunization Schedule Doesn't Work**

**0204-0000-20-250-H06-P**

**Learning Objectives**

At the conclusion of this application-based educational activity, participants should be able to do the following:

- Develop a catch-up immunization schedule for a pediatric patient.
- Assess the need to defer routine pediatric vaccines due to a patient's level of immunosuppression.
- Recommend non-routine immunizations for pediatric patients with disease state risk factors.
- Evaluate the optimal timing for administration of immunizations based on the use of immunocompromising medications.

*This activity is approved for Board Certified Pediatric Pharmacist (BCPPS) recertification credit.*

**\*\* Materials for this course will release on 02/03/2021 \*\***

---

**P VALUEable? Purpose, Use, and the Evolution of P Values in Statistical Reporting**

**0204-0000-20-294-H04-P**

**Learning Objectives**

At the conclusion of this application-based educational activity, participants should be able to do the following:

- Summarize recent trends in medical literature related to significance testing.
- Compare your current practice when discussing statistical significance to recent recommendations.
- Interpret p values, meanings, limitations, and appropriate use.
- Select alternative methodologies for interpretation of significance testing.

*This activity is approved for Board Certified Critical Care Pharmacist (BCCCP), Board Certified Pediatric Pharmacy Specialist (BCPPS), and Board Certified Pharmacotherapy Specialist (BCPS) recertification credit.*

**Faculty**

Emily C. Benefield, Pharm.D., BCPPS, BCPS  
Advanced Clinical Pharmacist-Pediatric Solid Organ Transplant  
Intermountain Healthcare-Primary Children's Hospital  
Salt lake City, Utah

Christopher Betz, Pharm.D., BCPS, FASHP, FKSH, Professor\*  
Department of Clinical and Administrative Sciences & Cardiology Clinical Pharmacy Special  
Sullivan University  
College of Pharmacy & Health Sciences  
Louisville, Kentucky

Snehal H. Bhatt, Pharm.D., AACC, BCPS-AQ Cardiology, FASHP\*  
Professor of Pharmacy Practice  
MCPS University  
Framingham, Massachusetts

Angela L. Bingham, Pharm.D., BCCCP, BCNSP, BCPS\*  
Assistant Professor of Clinical Pharmacy  
Philadelphia College of Pharmacy at University of the Sciences  
Philadelphia, Pennsylvania  
Clinical Pharmacy Specialist  
Cooper University Hospital  
Camden, New Jersey

Kelly J. Burch, Pharm.D., BCPPS  
Principal, Your Child's Pharmacist  
Des Peres, Missouri

Emily K. Frederick, Pharm.D., BCPS, Associate Professor  
Sullivan University  
College of Pharmacy and Health Sciences  
Louisville, Kentucky

Mary M. Hess, Pharm.D., B.S.Pharm., BCCCP, FASHP, FCCM, FCCP\*  
Associate Dean  
Jefferson College of Pharmacy  
Philadelphia, Pennsylvania

#### **Disclosures**

In accordance with the Accreditation Council for Continuing Medical Education's Standards for Commercial Support and the Accreditation Council for Pharmacy Education's Standards for Commercial Support, ASHP requires that all individuals involved in the development of activity content disclose their relevant financial relationships. A person has a relevant financial relationship if the individual or his or her spouse/partner has a financial relationship (e.g. employee, consultant, research grant recipient, speakers bureau, or stockholder) in any amount occurring in the last 12 months with a commercial interest whose products or services may be discussed in the educational activity content over which the individual has control. The existence of these relationships is provided for the information of participants and should not be assumed to have an adverse impact on the content.

All faculty and planners for ASHP education activities are qualified and selected by ASHP and required to disclose any relevant financial relationships with commercial interests. ASHP identifies and resolves conflicts of interest prior to an individual's participation in development of content for an educational activity. Anyone who refuses to disclose relevant financial relationships must be disqualified from any involvement with a continuing pharmacy education activity.

ASHP staff, program chairs, presenters, and reviewers report no financial relationships relevant to this activity.

#### **Methods and CE Requirements**

Activities consist of audio/video/PDF files, an attestation statement, and activity evaluation. Learners must review all content and complete the attestation statement and course evaluation to receive continuing pharmacy education credit for each activity.

Follow the prompts to claim, view, or print the statement of credit within 60 days after completing the activity.

#### **System Technical Requirements**

Learning activities are delivered via your Web browser and Acrobat PDF. For all activities, you should have a basic comfort level using a computer and navigating web sites.

View the [minimum technical and system requirements](#) for learning activities.

#### **Development**

These activities were developed by ASHP.
