Pediatric Pharmacy Specialty Recertification Literature Study: Module 1A-B (Cert # L209140)

Teaser: The Literature Study Module provides immediate access to peer-selected, contemporary articles that are relevant to specialty practice. After learners review the content, they must successfully complete an online assessment to earn recertification credit.

Tag: Certifications; Pediatric

ACPE Numbers: Various – see listing below
Pre-Sale Date: 03/18/2020
Content Release Date: 04/15/2020
Expiration Dates: 10/20/2020
Activity Type: Application-based
CE Credits: 10.00 hours (BPS and ACPE)
Activity Fee: $55 (ASHP member); $110 (non-member)

Accreditation for Pharmacists
The American Society of Health-System Pharmacists is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.

Target Audience
These Literature Studies are designed to help board-certified pharmacists who are seeking recertification credit hours to maintain their Board of Pharmacy Specialties (BPS).

Activity Overview
The Literature Study Module is intended for board certified pharmacists in need of recertification credit and is designed based on the content outline developed by the Board of Pharmacy Specialties (BPS). This module consists of 2 online home study activities (see table below). Each activity is designed to assess the learners’ ability to analyze and apply peer-selected contemporary articles to practice and includes a short video for enhanced learning and understanding.

Module 1A: Hematology/Oncology: This module focuses on the use of sodium thiosulfate, brentuximab vedotin, defibrotide, and tisagenlecleucel in various pediatric hematology/oncology and chemotherapy-induced diseases.

Module 1B: Neonate: This module focuses on neonatal issues including early caffeine use, hydrocortisone in BPD, Group B Streptococcal disease, and avoiding furosemide toxicity.

Learners will be required to review the content and complete the associated online assessments. The learner must be able to correctly answer the questions based upon their interpretation of the content, as well as “baseline specialty specific knowledge and/or easily retrievable information.” For purposes of this Literature Study, “baseline specialty specific knowledge and/or easily retrievable information” is defined as product labeling and well-established standards of practice in the specialty practice.

These activities are part of the ASHP professional development program for BCPPS recertification approved by the BPS.
** Materials for this course will be release on 04/15/2020 **

Recertification Credit*

Board certified pharmacists are eligible to receive up to 10 hours of recertification credit for completing this module. To earn recertification credit, learners must review the activity content and successfully complete the online assessments by the deadline. Only completed assessments will be eligible for credit; no partial or incomplete assessments will be processed. You are allowed only one attempt to successfully complete this assessment.

Articles and Learning Objectives

Module 1A: Hematology/Oncology

0204-0000-20-939-H01-P

This module focuses on the use of sodium thiosulfate, brentuximab vedotin, defibrotide, and tisagenlecleucel in various pediatric hematology/oncology and chemotherapy-induced diseases.

Learning Objectives:

- Explain the rationale, methodology, findings, limitations, and implications of the study of cisplatin with and without sodium thiosulfate in pediatric patients with standard-risk hepatoblastoma
- Develop recommendations for the use of sodium thiosulfate for prevention of hearing loss in pediatric patients receiving cisplatin for standard-risk hepatoblastoma

Learning Objectives:

- Explain the rationale, methodology, findings, limitations, and implications of the ECHELON-1 study of brentuximab vedotin in patients with stage III or IV classic Hodgkin’s lymphoma
- Develop recommendations for the use of brentuximab vedotin in previously untreated patients with stage III or IV classic Hodgkin’s lymphoma

** Materials for this course will be release on 04/15/2020 **

Learning Objectives:
- Describe the epidemiology, microbiology, pathogenesis, and etiology of group B streptococcal (GBS) disease in newborn infants
- Develop recommendations for the prevention, evaluation, and treatment of group B streptococcal (GBS) disease in newborn infants

Learning Objectives:
- Explain the rationale, methodology, findings, limitations, and implications of the study of furosemide ototoxicity.
- Develop recommendations for the use of furosemide without ototoxicity in young infants.

Faculty
Jessica Biggs, Pharm.D., BCPPS
NICU Clinical Pharmacy Specialist
University of Maryland Medical Center
Baltimore, MD

Kelly Lunsford, Pharm.D., BCPPS
Clinical Pharmacist – Pediatric/Neonatal Critical Care
University of Virginia Children’s Hospital
Charlottesville, VA
Clinical Assistant Professor
Virginia Commonwealth University School of Pharmacy
Richmond, VA

Kate Reichert, Pharm.D., BCPPS
Pediatric Oncology Clinical Pharmacy Specialist
Memorial Sloan Kettering Cancer Center
New York, NY

Jennifer Young, Pharm.D., BCOP
Clinical Pharmacy Specialist – Hematology/Oncology
Cincinnati Children’s Hospital Medical Center
Cincinnati, OH

Content Matter
Peter N. Johnson, Pharm.D., BCPPS, BCPS, FPPAG
Associate Professor of Pharmacy Practice
University of Oklahoma College of Pharmacy
Clinical Specialist, Pediatric Critical Care
The Children’s Hospital at OU Medical Center
Oklahoma City, Oklahoma
** Materials for this course will be release on 04/15/2020 **

Jamie L. Miller, Pharm.D., BCPPS, BCPS

Disclosures
In accordance with the Accreditation Council for Continuing Medical Education’s Standards for Commercial Support and the Accreditation Council for Pharmacy Education’s Standards for Commercial Support, ASHP requires that all individuals involved in the development of activity content disclose their relevant financial relationships. A person has a relevant financial relationship if the individual of his or her spouse/partner has a financial relationship (e.g. employee, consultant, research grant recipient, speakers bureau, or stockholder) in any amount occurring the in the last 12 months with a commercial interest whose products or series may be discussed in the educational activity content over which the individual has control. The existence of these relationships is provided for the information of participants and should not be assumed to have an adverse impact on the content.
** Materials for this course will be release on 04/15/2020 **

All faculty and planners for ASHP education activities are qualified and selected by ASHP and required to disclose any relevant financial relationships with commercial interests. ASHP identifies and resolves conflicts of interest prior to an individual’s participation in development of content for an educational activity. Anyone who refuses to disclose relevant financial relationships must be disqualified from any involvement with a continuing pharmacy education activity.

- Jennifer Thackray: Employee, Equashield; Consultant, Wolters Kluwer
- All other planners, presenters, reviewers, ASHP staff and others with an opportunity to control content report no financial relationships relevant to this activity.

Methods and CE Requirements
Activities consist of educational materials, assessments, and activity evaluations. In order to receive continuing pharmacy education credit, learners must:

- Complete the attestation statement
- Review all content
- Complete and pass the assessments
- Complete the evaluations

Follow the prompts to claim, view, or print the statement of credit within 60 days after completing the activity.

System Technical Requirements
Courses and learning activities are delivered via your Web browser and Acrobat PDF. For all activities, you should have a basic comfort level using a computer and navigating web sites.

View the minimum technical and system requirements for learning activities.

Development
These activities were developed by ASHP.
