Accreditation for Pharmacists
The American Society of Health-System Pharmacists is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.

Target Audience
This continuing pharmacy education activity is designed for pharmacy managers, and members of the management team, pharmacy team leaders, aspiring leaders, seasoned practitioners, new supervisors, pharmacy residents, multihospital pharmacy leaders and health-system administrators.

Activity Overview
This activity is the must-must-attend event for pharmacy leaders. Acquire the tools necessary to achieve success individually and for your organization. Attendees will select from eight different breakouts that encourage problem-solving and networking with colleagues in small groups. Participants will develop new skills and formulate take-home action plans in these intensive skill-building breakout sessions. This conference is designed to appeal to a broad audience of pharmacy leaders. Take advantage of this opportunity to network with peers, develop future leaders, and learn new skills and strategies to enhance your practice.

Learning Objectives
After participating in this CPE activity, participants should be able to:
• Discuss the demand for generic and biosimilar alternatives and how these create challenges for the FDA.
• Describe key issues health care providers will need to take into account to ensure medication use is accessible, safe, and attains intended patient outcomes.
• Discuss the value of effective “stewardship” programs (e.g. opioid management) in terms of strategy, impact, and outcomes.
• Outline strategies for improving sterile compounding and managing increasing scrutiny on compounding-related health system processes.
• Explain strategies that pharmacy managers and directors might employ to ensure the highest level of compliance with regulatory oversight of the pharmacy enterprise.

Methods and CE Requirements
All sessions consist of faculty slide presentations, active learning activities, discussions, and session materials. Participants must attend each session in its entirety to get the CE Attendance code to claim continuing pharmacy education (CPE) credit online at ASHP eLearning Portal (http://elearning.ashp.org). Follow the prompts online to complete the session evaluation, claim credit, and view the statement of credit immediately but no later than December 10, 2017.

Per ACPE requirements, CPE credits must be claimed within 60 days of being earned. To verify that you have completed the required steps and to ensure your credits have been reported to CPE Monitor, we encourage you to check your NABP eProfile account to validate your credits were transferred successfully before the ACPE 60-day deadline. After the 60 day deadline, ASHP will no longer be able to award credit for this conference.

System Technical Requirements
System Requirements Courses and learning activities are delivered via your Web browser and Acrobat PDF. Users should have a basic comfort level using a computer and navigating web sites.
