POSTER ABSTRACTS ARE CLASSIFIED AS:

- **Evaluative Study Report:** Authors may select evaluative study submission type for reporting on their original research, including clinical research studies, drug-use evaluations, and evaluations of pharmacy services. Evaluative study reports must contain a purpose, methods, results, and conclusion. In addition, the abstract must include scientific results and/or data to support the conclusions. When applicable, the abstract must indicate that the clinical research was approved by the appropriate ethics committee or institutional review board (IRB), and if appropriate, informed consent was obtained for all subjects. If IRB approval was deemed not necessary, there should be a statement that approval was not required.
