Resource Guide for Uninsured & Underinsured Patients
Date of Publication May 2023

This resource document contains internet links to websites that pharmacists and other health care practitioners and support staff can use to help patients with limited access to affordable care. It covers everything from how to help patients enroll in Medicare and Medicaid, how to find manufacturer assistance program applications easily, charity and discount pharmacy programs, and durable medical equipment. It also contains centralized guides to finding resources in a patient's community for housing, nutrition, and senior programs.
